

IN THE UNITED STATES DISTRICT COURT
FOR THE WESTERN DISTRICT OF NORTH CAROLINA
CHARLOTTE DIVISION

MICROSOFT CORPORATION,

Plaintiff,

v.

JOHN DOES 1-82, CONTROLLING A
COMPUTER BOTNET THEREBY
INJURING MICROSOFT AND ITS
CUSTOMERS,

Defendant.

Civil Action No. 3:13-CV-00319-GCM

**ORDER GRANTING DEFAULT
JUDGMENT AND PERMANENT
INJUNCTION**

THIS MATTER came before the Court on Microsoft Corp.'s ("Microsoft" or "Plaintiff") Motion for Default Judgment and Permanent Injunction against Defendants John Does 1-82 ("Defendants").

FINDINGS OF FACT AND CONCLUSIONS OF LAW

The Court has considered Microsoft's motion, the brief and evidence submitted in support of the motion and the other pleadings, papers and evidence filed in this action.

Based on the foregoing, the Court finds:

1. Defendants were properly served with Microsoft's summons and Complaint in this action. Defendants were properly served and adequate notice was provided through means authorized by law, satisfying Due Process, satisfying Fed. R. Civ. P. 4(f)(3), and reasonably calculated to notify Defendants of the Complaint and this action.
2. Defendants failed to appear, plead, or otherwise defend against Microsoft's action.

3. The time for answering Microsoft's Complaint was 21 days from service of the summons and the Complaint, and more than 21 days have elapsed since Defendants were served.

4. This Court has jurisdiction over the subject matter of this case and has jurisdiction over all parties hereto; the Complaint states a claim upon which relief may be granted against Defendants under the Computer Fraud and Abuse Act (18 U.S.C. § 1030); the CAN-SPAM Act (15 U.S.C. § 7704); the Electronic Communications Privacy Act (18 U.S.C. § 2701); Trademark Infringement, False Designation of Origin, and Trademark Dilution under the Lanham Act (15 U.S.C. §§ 1114 et seq.); the Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. § 1962); North Carolina General Statute § 14-458 (Computer Trespass); and the common law of conversion, unjust enrichment and nuisance.

5. Microsoft owns the registered trademarks "Microsoft," "Windows," and "Internet Explorer," used in connection with its services, software, and products. Trademarks of third parties and other members of the public are also impacted by Defendants' activities.

6. Defendants have engaged in and are likely to engage in acts or practices that violate the Computer Fraud and Abuse Act (18 U.S.C. § 1030); the CAN-SPAM Act (15 U.S.C. § 7704); the Electronic Communications Privacy Act (18 U.S.C. § 2701); Trademark Infringement, False Designation of Origin, and Trademark Dilution under the Lanham Act (15 U.S.C. §§ 1114 et seq.); the Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. § 1962); North Carolina General Statute § 14-458 (Computer Trespass); and the common law of conversion, unjust enrichment and nuisance.

7. There is good cause to believe that, unless Defendants are restrained and

enjoined by Order of this Court, immediate and irreparable harm will result from Defendants' ongoing violations of the Computer Fraud and Abuse Act (18 U.S.C. § 1030); the CAN-SPAM Act (15 U.S.C. § 7704); the Electronic Communications Privacy Act (18 U.S.C. § 2701); Trademark Infringement, False Designation of Origin, and Trademark Dilution under the Lanham Act (15 U.S.C. §§ 1114 et seq.); the Racketeer Influenced and Corrupt Organizations Act (18 U.S.C. § 1962); North Carolina General Statutes § 14-458 (Computer Trespass); and the common law of conversion, unjust enrichment and nuisance. Defendants have engaged in violations of the foregoing laws by:

a. Developing, commercializing, and supporting a Citadel botnet development kit, with the purpose and effect of enabling other Defendants to create, deploy, and operate, Citadel botnets with the purpose of stealing identification and personal security information and money, intruding upon Microsoft's software and its customers' computers, and intruding upon the protected computers of third parties, including banks and other members of the public;

b. Providing a stolen version of Windows XP and a stolen Windows XP product key with the sole purpose and effect of enabling other Defendants to create, deploy, and operate, criminal botnets with the purpose of stealing identification and personal security information and money, and intruding upon Microsoft's software and its customers' computers;

c. Creating, deploying, and operating criminal botnets with the purpose and effect of stealing identification and personal security information and money through the misuse of Plaintiff's Windows operating system and Internet Explorer software;

d. Intentionally accessing and sending malicious software to Microsoft's

licensed Windows operating system and Internet Explorer software, the protected computers of Microsoft's customers and also the protected computers of third parties, including banks and other members of the public, without authorization, in order to infect those computers and make them part of the Citadel botnet;

- e. Sending malicious software to configure, deploy and operate a botnet;
- f. Sending unsolicited spam e-mail to Microsoft's Hotmail accounts;
- g. Sending unsolicited spam e-mails that falsely indicate that they are from or approved by Plaintiff or third-parties, including banks, NACHA or other companies or institutions, the purpose of which is to deceive computer users into taking steps that will result in the infection of their computers with botnet code and/or the disclosure of personal and financial account information;

- h. Stealing personal and financial account information from users of Microsoft's Windows operating system and Internet Explorer software;

- i. Using stolen information to steal money from the financial accounts of those users using Microsoft's Windows operating system and Internet Explorer software;

and

- j. Associating with one another in a common criminal enterprise engaged in these illegal acts.

8. If such conduct continues, irreparable harm will occur to Plaintiff and the public, including Plaintiff's customers, financial institutions, NACHA and other members of the public.

9. The Defendants are engaging, and will continue to engage, in such unlawful actions if not immediately restrained from doing so by Order of this Court. Immediate and

irreparable damage will result from Defendants' control and use of the botnet command and control software that is hosted at and otherwise operates through the Internet domains listed in Appendix A.

10. The pleadings and evidence adduced in this case show that: (1) Defendants are engaged in activities that directly violate U.S. law and harm Plaintiff and the public, including Plaintiff's customers and third party financial institutions, NACHA and other members of the public; (2) Defendants have continued their unlawful conduct despite the clear injury to the foregoing interests; (3) Defendants are likely to delete or relocate the botnet command and control software at the domains in Appendix A and the harmful, malicious, and trademark infringing software disseminated through these domains.

11. The Citadel malicious software code infecting end-user computers poses a significant and present threat to those end-users as well as to Microsoft and third party financial institutions with which those end-users maintain their financial accounts, and that therefore, the end-users, Microsoft and the financial institutions victimized by the Citadel malicious software would stand to benefit through the neutralization and removal of the Citadel malicious software from the end-users' computers.

12. The Citadel malicious software code infecting end-user computers keeps those computers from connecting to the websites of providers of anti-virus software and updating the anti-virus software on their computer, thereby subjecting the computers to the threat of repeated malware infections, unless steps are taken to alter the behavior of the Citadel malicious software or remove it entirely.

13. The Citadel malicious code infecting end-user computers will continue to monitor the Internet browsing activities of those computers unless steps are taken to alter its

behavior or remove it entirely.

14. Defendants have engaged in illegal activity using the Internet domains identified in Appendix A to this order to host the command and control software and content used to maintain and operate the botnet. To immediately halt the injury caused by Defendants, each of Defendants' domains set forth in Appendix A must be immediately transferred to the ownership and control of Microsoft and redirected to the Microsoft-secured name-servers named NS5.microsoftinternetsafety.net and NS6.microsoftinternetsafety.net and thus made inaccessible to Defendants and used to clean the Citadel malicious code from end-user computers.

15. There is good cause to direct that third party Internet registries and registrars in the United States to reasonably assist in the implementation of this Order and refrain from frustrating the implementation and purposes of this Order, pursuant to 28 U.S.C. § 1651(a) (the All Writs Act).

16. There is good cause to believe that Defendants may attempt to move the botnet infrastructure, allowing them to continue their misconduct and that they would destroy, move, hide, conceal, or otherwise make inaccessible to the Court evidence of their misconduct, the botnet's activity, the infringing materials, the instrumentalities used to make the infringing materials, and the records evidencing the manufacture and distributing of the infringing materials.

17. There is good cause to permit notice of the instant Order and service of the Complaint by formal and alternative means, given the exigency of the circumstances and the need for prompt relief. The following means of service are authorized by law, satisfy Due Process, satisfy Fed. R. Civ. Pro. 4(f)(3), and are reasonably calculated to notify Defendants

of the instant order: transmission by e-mail and electronic messaging addresses to the known email and messaging addresses of Defendants and to their contact information provided by Defendants to the domain registrars, registries, data centers and Internet hosting providers, and by publishing notice to the Defendants on a publicly available Internet website.

18. There is good cause to believe that the harm to Plaintiff of denying the relief requested outweighs any harm to any legitimate interests of Defendants and that there is no undue burden to any third party.

IT IS THEREFORE ORDERED as follows:

- A. Microsoft's Motion for Default Judgment and Permanent Injunction is **GRANTED**.
- B. Defendants are in default.
- C. Microsoft is awarded judgment against Defendants.
- D. Defendants, their representatives and persons who are in active concert or participation with them are permanently restrained and enjoined from:

1. Developing, commercializing, and supporting a Citadel botnet development kit, with the purpose and effect of enabling other Defendants to create, deploy, and operate, Citadel botnets with the purpose of stealing identification and personal security information and money, intruding upon Microsoft's software and its customers' computers, and intruding upon the protected computers of third parties, including banks and other members of the public;

2. Providing a stolen version of Windows XP and a stolen Windows XP product key with the sole purpose and effect of enabling other Defendants to create, deploy,

and operate, criminal botnets with the purpose of stealing identification and personal security information and money, and intruding upon Microsoft's software and its customers' computers;

3. Creating, deploying, and operating criminal botnets with the purpose and effect of stealing identification and personal security information and money through the misuse of Plaintiff's Windows operating system and Internet Explorer software;

4. Intentionally accessing and sending malicious software to Microsoft's licensed Windows operating system and Internet Explorer software, the protected computers of Microsoft's customers and also the protected computers of third parties, including banks and other members of the public, without authorization, in order to infect those computers and make them part of the Citadel botnet;

5. Sending malicious software to configure, deploy and operate a botnet;

6. Sending unsolicited spam e-mail to Microsoft's Hotmail accounts;

7. Sending unsolicited spam e-mails that falsely indicate that they are from or approved by Plaintiff or third-parties, including banks, NACHA or other companies or institutions, the purpose of which is to deceive computer users into taking steps that will result in the infection of their computers with botnet code and/or the disclosure of personal and financial account information;

8. Stealing personal and financial account information from users of Microsoft's Windows operating system and Internet Explorer software;

9. Using stolen information to steal money from the financial accounts of those users using Microsoft's Windows operating system and Internet Explorer software; and

10. Associating with one another in a common criminal enterprise

engaged in these illegal acts.

E. Defendants, their representatives and persons who are in active concert or participation with them are permanently restrained and enjoined from configuring, deploying, operating or otherwise participating in or facilitating the Citadel botnets described in the Complaint, including but not limited to the command and control software hosted at and operating through the domains set forth in Appendix A to this order and through any other component or element of the botnet in any location.

F. Defendants shall forfeit ownership and control of the domains identified in Appendix A to this order to Microsoft.

G. Pursuant to the All Writs Act (28 U.S.C. § 1651), the domain registries and domain registrars of the Citadel botnet domains identified in Appendix A to this Order (collectively the “Domain Providers”) shall implement the provisions of this order in the following fashion:

1. Transfer the domains to the control of Microsoft, such that Microsoft is the registrant with control over hosting and administration of the domains. Domains should be transferred to Microsoft’s account at the sponsoring registrar MarkMonitor or such other registrar and account details specified by Microsoft.

2. The WHOIS registrant, administrative, billing and technical contact and identifying information should be the following, or other information as may be specified by Microsoft:

Domain Administrator
Microsoft Corporation
One Microsoft Way
Redmond, WA 98052
United States
Phone: +1.4258828080

Facsimile: +1.4259367329
domains@microsoft.com

3. The domains shall be made active and shall resolve in the manner set forth in this order, or as otherwise be specified by Microsoft, upon its taking control of the domains.

4. The domains shall be assigned the authoritative name servers ns5.microsoftinternetsafety.net and ns6.microsoftinternetsafety.net and, as may be necessary, the IP address associated with name server or taking other reasonable steps to work with Microsoft to ensure that the domains are put within Microsoft's control, and to ensure that Defendants cannot use them to control the botnet.

5. The domains shall remain active and continue to resolve in the manner set forth in this Order.

6. The Domain Providers shall prevent transfer or modification of the domains by Defendants and shall prevent transfer or control of the domains to the account of any party other than Microsoft.

7. The Domain Providers shall take all steps required to propagate the foregoing changes through the DNS, including domain registrars.

8. Non-U.S. Domain Providers are respectfully requested, but are not ordered, to comply with the foregoing steps, in order to protect the integrity and security of the Internet, to protect end-user victims of the Citadel botnet in all countries, to advance the public interest and to protect Microsoft and its customers from the Citadel botnet.

9. Third-party The Internet Corporation for Assigned Names and Numbers ("ICANN"), 12025 Waterfront Dr., Suite 300, Los Angeles, California, 90094, is respectfully requested, but is not ordered, to use its best efforts to assist and facilitate the transfer of U.S.-based domains set forth in Appendix A, to Microsoft.

H. To fully neutralize the Citadel botnet malicious software that has taken control of Microsoft's property, including its Windows operating system and Internet

Explorer browser, and associated files, to return control of that property to Microsoft, to end the irreparable harm to Microsoft and its customers, to abate the nuisance caused by Defendants' conduct, and to notify customers of acts they may take to permanently remove the Citadel malicious code from those computers, consistent with the terms of Microsoft's license to its Windows operating system, Microsoft shall be permitted to do the following:

1. Through Microsoft's control over the domains listed in Appendix A, to cause all Citadel-infected end-user computers attempting to connect to any Citadel Command and Control server to instead connect to one or more servers under the control of Microsoft ("the Microsoft Curative Servers");

2. To stage on the Microsoft Curative Server a first curative configuration file (the "First Curative Configuration File") that is known to be requested by the Citadel botnet malicious software running on end-user computers, such that upon connecting to the Microsoft Curative Server, the Citadel botnet malicious software shall download, decrypt, and thereafter follow the instructions in the First Curative Configuration File;

3. To permit Microsoft to prepare the First Curative Configuration File such that it (a) stops the harmful acts of the Citadel botnet malicious software; (b) permits the infected computer to connect to antivirus websites from which assistance and tools may be obtained for removing the Citadel infection from the computer, and which are currently blocked by the Citadel botnet software; and (c) keeps the Citadel malicious software on the computer from communicating with any known Citadel Command and Control servers, and instead causes it to communicate with the Microsoft Curative Servers.

4. To permit Microsoft to stage on the Microsoft Curative Server a second curative configuration file (the “Second Curative File”) that is known to be requested by the Citadel malicious software;

5. To permit Microsoft to prepare the Second Curative Configuration File such that, when an end-user of an infected computer attempts to connect to any website on the Internet other than an antivirus website, through Internet Explorer, Google Chrome, or Mozilla Firefox web browsers, a notice (the “Curative Notice”), will be displayed to the user through their browser, and that such notice shall be displayed in the user’s browser for approximately twenty minutes, during which time the user will be able only to browse to the Microsoft Curative Servers or to an antivirus website;

6. To permit Microsoft, should it be necessary and prudent in Microsoft’s estimation to promote further disinfection of computers currently infected with Citadel, to alternate staging of the First and Second Curative Configuration files on the Curative Servers such that the Curative Notice shall be displayed to the users of computers infected with Citadel botnet malicious software for up to one twenty minute period every five hours for one twenty-four hour period once per week, until such time as Microsoft deems it no longer necessary to prompt the owners of such infected end-user computers to take the steps necessary to cleanse them of the Citadel botnet infection.

IT IS SO ORDERED
